TAKE CARE OF YOU AND YOUR WELL-BEING --- WITHOUT THE OVERWHELM

Many of us are so busy with work and family responsibilities that taking care of ourselves falls to the bottom of our "to do" list. The result: We're zapped of energy, our mind is racing, we can't sleep and awake exhausted. We want to sit less and move more but there's no time to fit exercise into busy workdays. Everyone's talking about mindfulness and meditation but they have no clue how to practice it to help focus and de-stress. There's so much information and misinformation out there, especially about diets and healthy eating. It's overwhelming. And the hardest part: Getting started.

Join Dr. Kim as she walks through how we can put ourselves and our health first in order to create a more resilient and revitalized life.

In this webinar, participants will:

- Learn tips to practice and prioritize self-care
- Discover how to manage and balance energy - not time - to achieve high-level wellness
- Kick-start healthy habits to boost immunity and vitality with Dr. Kim's **Eat, Sleep, Move, Breathe** approach to self-care.

A highly interactive session that guarantees to get participants out of their chairs and moving with yoga, desk exercises and a mindfulness practice. Participants will leave with self-care tips and resources that they can quickly and easily integrate into their busy workdays and everyday lives.

A SELF-CARE SURVIVAL KIT is included as a takeaway gift for attendees.
